Request for Qualifications
Engineering Services for the City of Elberton
Water Main Expansion Project

General

The City of Elberton is issuing a Request for Qualifications (RFQ) to engineering firms experienced in the development of engineering plans and construction and bid documents for water infrastructure projects. The project is expected to include the replacement and upgrade of approximately 7 miles of new water main within city limits. Responding firms should be technically qualified, licensed to provide design and engineering services relevant to the scope of work, and experienced in the preparation of plans for infrastructure projects. Services to be provided will include preparation of a Preliminary Engineering Report (PER) and further design, bid, and management services if federal or state funding is awarded.

Background

The City of Elberton intends to apply for federal and/or state funding through the Appalachian Regional Commission (ARC), Georgia Environmental Finance Authority (GEFA), or other similar funding agencies. The upcoming ARC pre-application due date is June 19, 2026. The project seeks to increase the capacity of the City's water system.

Administration

The RFQ is issued by the City of Elberton with technical assistance provided by the Northeast Georgia Regional Commission (NEGRC).

Evaluation

Procedures for the selection of an individual or firm will be in accordance with local government requirements and the Common Rule Selection Process. All Statements of Qualifications will be evaluated in terms of project approach, timing, experience, quality of work, capacity to perform, and costs. Prior experience in similar projects and qualifications of principal staff should be included. Past performances on similar projects, infrastructure, and design will also be reviewed for project timeliness. Other factors that may be under consideration are the ability to complete work within budget, quality of work, and other factors, such as knowledge of the community and local area. Local government experiences and qualifications desired include, but are not limited to, preparation of engineering plans for new construction, infrastructure, federally funded projects, and estimation of plan implementation costs.

Information Required

The statement of qualifications shall contain the following:

- A. History of the firm and resources
- B. ARC experience, including other DCA grant programs
- C. Key personnel/qualifications
- D. Current workload
- E. Scope and level of service proposed
- F. Experience with similar projects and a list of references
- G. Fees and/or Percentages (if any) associated with the Preliminary Engineering Report (PER) for the application, and Design and Construction Management Services, if the project is funded. The draft PER would be needed no later than **June 15, 2026**. A full PER would be required by July 5, 2026. The ARC pre-application due date is June 19, 2026.
- H. Errors and Omissions Insurance

Selection Process

The procedure being followed is a request for qualifications followed by a review, ranking, and selection by the City of Elberton. An invitation to conduct the project will be issued to the selected firm, and all RFQ respondents will be notified of selection or non-selection at the appropriate time.
